I would like to share my experience and you can quote me on that!

I have just completed my first three months with Archana. I cannot recommend her services highly enough. When I came to her, I had a broken spirit and very low self-esteem. I don't understand how the Meridian Tapping works, but it sure does make a difference. She really listens to me during our sessions and draws out exactly what I mean (even through my sometimes jumbled thoughts). And then, once she understands what I mean, she pushes me on to the next best step in order to accomplish what I was made to do. My self-awareness has gone from zero to full speed ahead. I truly had no purpose and nothing to look forward to when I met her. Now, I am very focused on what would be the best career fit for me and how to make that dream a reality.

Quite simply, she is brilliant. One of the things I appreciate most about her is that what you are going through...she has been there and she KNOWS there is a way out because she made it out. With hard work, determination, and Archana by your side, you can too.
